PROFESSIONAL SUMMARY

Software Engineering student at the University of Nebraska-Lincoln (GPA: 3.805) with hands-on internship experience working in a team using a SCRUM framework to build full-stack, production-quality features. Volunteers time to mentor and teach as a undergraduate teaching assistant and Vice-President of a robotics club that guides high school students through the engineering processes of building a nationally competitive robot.

EDUCATION

University of Nebraska-Lincoln
Bachelor of Science in Software Engineering. GPA: 3.805/4.0.

Lincoln, NE
Expected May 2029

SKILLS

Programming Languages: Java, JavaScript, TypeScript, Python, HTML, C#, Swift, SQL

Frameworks and Libraries: React, Tailwind CSS

EXPERIENCE

Software Engineering Intern

NashTech

June 2026 – July 2026

Ho Chi Minh City, Vietnam

- Built 2 full-stack, production-quality dashboards for a BOM analysis software to validate an ETL pipeline's data and to track the call quota of the project's vital Accuris API using C#, TypeScript, React, and Tailwind CSS.
- Worked with ETL pipelines and REST APIs in a professional engineering environment to support data quality and usage visibility.
- Collaborated with a diverse group of interns to support and assess English language proficiency, developing cross-cultural communication in a dominantly Vietnamese work environment.

Undergraduate Teaching Assistant, SOFT 160: Introduction to Software Engineering

University of Nebraska-Lincoln

August 2026 – Present

Lincoln, NE

- Lead a lab section of 5 students to guide students through hands on Java exercises and teach them software engineering principles.
- Hold office hours to assist students with coursework and debugging their development environments.

Strength Supervisor

UNL Recreational Center

May 2026 – Present

Lincoln, NE

- Assist patrons with proper lifting technique and general facility needs.
- Coordinate with team members to enforce gym rules to maintain a clean and safe gym environment.

ACTIVITIES & LEADERSHIP

FIRST Nebraska

External Vice President

May 2025 - Present

- Teach high school students engineering design processes within robotics and software engineering.
- Coordinate with faculty, coaches, and other mentors to plan and execute a successful competitive season.
- Manage the external operations of the organization by organizing meetings, delegating tasks between the students, and updating members, faculty, and parents with the progress of the team.
